

EVOLUTIONseries
A COCKTAIL OF SOLUTIONS

Plates and devices.

Beauty involves all senses.

Evolution is not only good to see, but also to touch. It is in three different textures, which are velvet, bright and gummed. Functionality and look are only questions of taste.

SCAME PLATES AND DEVICES

Velvet

Bright

Gummed

Ingredients: combine a refined design with a wide range of colours, touches of bold textures and some exclusive luxury (at will). Here we have Classic, Carrée and Bombée: a surprising cocktail.

The range of colours is a rainbow of opportunities, from the boldest to the most traditional ones. Evolution changes the mind of people thinking that life is only black and white.

Exclusive

Changing the plate into a small luxurious frame is a question of very few precious touches. Exclusivity is in the details.

The line that combines roundness.

Exuberance is the pleasure of excess contained in a rigorous control of shapes. Gian Lorenzo Bernini's word in Rome, Antoni Gaudí's in Barcelona and Frank O.Gherý's in Bilbao.

There is something new, or better, ancient in the air.
Is it the rigorous, but soft line combining with the endless modern?
Contemporaries express the hard sentence.
We listen to the Beatles, Italian singer-songwriters and Frank Sinatra
and, clearly, the whole Classic music.

Essentiality is refinement. Rigour is pleasure to taste alone or in company, comfortably seated, maybe on the chaise longue of Le Courbusier, reading "Zen in the Art of Archery".
